**FILED**

APR 11 2005

**IN THE MATTER OF THE PETITION OF )  
AT&T FOR EMERGENCY ALLOCATION )  
OF TELEPHONE NUMBERING RESOURCES )  
IN THE 317 AREA CODE )**

**INDIANA UTILITY  
REGULATORY COMMISSION**

**CAUSE NO. 42816**

You are hereby notified that on this date the Indiana Utility Regulatory Commission ("Commission") has caused the following entry to be made:

Petitioner should answer the following data requests on or before Friday, April 22, 2005.

- 1) Please provide Petitioner's plan, via affidavit or testimony of the need for these numbers and the time frame for the activation of all 4,000 numbers.
- 2) Why are sequential numbers needed, and why can't the request be satisfied with non-sequential numbers from AT&T inventory or the thousand-block pool?
- 3) Are there sufficient numbering resources currently in the thousand-block pool for the Carmel Rate Center to meet the Petitioner's request? (It is staff's understanding that some of the blocks specified by the Petitioner in its original application to NeuStar have recently been assigned to other carriers and are not longer available for assignment.) If there are not four consecutive blocks available for the Carmel Rate Center, could the Petitioner use non-consecutive thousand blocks? If it cannot, why not?
- 4) To the extent that a new NXX Code has to be opened, is AT&T willing to donate back all unnecessary blocks to the thousand-block pool?

**IT IS SO ORDERED.**
